

VVEC LINE LIFE

MARCH 2026 | PUBLISHED FOR THE MEMBERS OF VERDIGRIS VALLEY ELECTRIC COOPERATIVE | A SUPPLEMENT TO OKLAHOMA LIVING | WWW.VVEC.COM

You're a member, not a customer

Verdigris Valley Electric Cooperative and the other electric cooperatives of Oklahoma are special because we are owned by the members we serve and because we are guided by a set of seven principles that reflect the best interests of those members.

Over 520,000 meters are served by the 28 electric distribution co-ops in Oklahoma, which provide affordable, dependable electricity.

All cooperatives adhere to these seven guiding principles:

1. Voluntary and Open Membership | 2. Democratic Member Control

3. **Members' Economic Participation** – Members contribute equitably to, and democratically control, the capital of their cooperative. At least part of that capital is usually the common property of the cooperative. Members usually receive compensation through capital credits.

4. Autonomy and Independence | 5. Education, Training, and Information
6. Cooperation among Cooperatives | 7. Concern for Community

HOW CAPITAL CREDITS WORK

1

We track your business with us (energy use and paid bills) each month.

2

We pay operating expenses throughout the year & set aside any leftover revenue.

3

When financial conditions allow, the board votes to retire (pay) capital credits to members.

4

We send your allocation (share) of capital credits as a bill credit or check.

On pages 4 -8 of *Line Life*, you'll find a list of Lost Members. From time to time members move out of VVEC's service territory or pass away but Capital Credits still have to be allocated for the energy used while members had active service. Sometimes VVEC's last known address is not correct and the capital credit checks that are sent out come back to the cooperative.

We need your help to find these former members. If you see a name on the list that you recognize and you have information about a current address, please contact us at 918-371-2584.

We love our members and are proud to serve you with safe, reliable service.

VVEC encourages the safe, efficient use of electricity and actively supports community initiatives that benefit our members and the public.

IN CASE OF AN OUTAGE

• First, check your fuses or circuit breakers. Every service is different. You may have fuses or circuit breakers in your house, on the side of your house, under your meter, or all three places. Check to see if your neighbors have electricity.

• Then, call the co-op at 371-2584 or 1-800-870-5948. Have your account number, name as it appears on the account, and address handy to give to the dispatcher. If you should get a recording, leave your information; every message will be answered.

• Download the SmartHub app at www.smarthubapp.com to report outages from your smartphone.

WINTER RESIDENTIAL RATES

October through March usage;
November through April billing

Customer Charge	\$40.00
Energy Charge	\$.08279/kwh

A power cost adjustment (PCA) will be applied to all bills when the actual cost of power purchased exceeds or is less than 62.088 mills per kwh.

In addition, a gross receipts tax of 2% of revenue will be included, plus additional taxes, if applicable.

Tree crews are working to clear right-of-way on the Oologah and Javine substations.

TIPS TO AVOID ENERGY SCAMS

Scammers and cyber criminals look for weak points to exploit before software companies can fix them.

Update software programs on your computer, tablet and mobile phone as soon as possible when a newer version becomes available. Software updates often contain critical patches and protections against security threats.

Turn on automatic updates to automatically update your security software, internet browser, operating system and mobile apps.

EMPLOYEE SPOTLIGHT

Darrell White

With an incredible 43 years of service to Verdigris Valley Electric Cooperative, Darrell White embodies dedication, consistency, and a true heart for service. Serving in the Engineering Department as Engineering Services Supervisor, Darrell has played a vital role in supporting both our operations and our members throughout his long and impactful career. Ask him what the best part of his day is, and his answer is simple and sincere: helping the members we serve.

Outside of work, Darrell enjoys spending time doing what matters most to him: being with family. Whether it's heading to the lake, camping, boating, or simply enjoying quality time together, those moments recharge him. He and his wife, Guyla, share a life rooted in family, alongside their twin daughters, Carley and Riley.

When asked what he values most about WEC, Darrell points directly to the people. That appreciation for his coworkers is reflected in the way he shows up every day - with professionalism, experience, and a calm willingness to help wherever needed. We are grateful for Darrell's decades of commitment, his leadership, and the lasting impact he continues to make on our cooperative family.

Spring is full of fresh starts and it's the perfect time for a quick safety check at home.

As we adjust to longer days, celebrate St. Patrick's Day, and welcome the first day of Spring, take a few minutes to test your smoke detectors and carbon monoxide alarms.

A simple check now helps protect what matters most all season long.

VVEC IS LOOKING FOR LOST MEMBERS – CURRENT ADDRESSES NEEDED

From time to time members move out of VVEC's service territory or pass away but Capital Credits still have to be allocated for the energy used while members had active service. Sometimes VVEC's last known address is not correct and the capital credit checks that are sent out come back to the cooperative. We need your help to find these former members. If you see a name on the list that you recognize and you have information about a current address, please contact us at 918-371-2584.
